

# Mesha Naidoo-Edwardson

## Mathematics Student

613-850-8592

## Summary of Qualifications

- Thorough understanding of working on web and mobile applications through my Quality Assurance Automation position and SpotifySentences side project.
- Exceptional ability to work effectively with teams and independently as indicated through my experiences with Starbucks and Hackathons.
- Strong project management skills demonstrated by my Co-President position on Student's Council.

## Experience

### Quality Assurance Automation Intern, Contractor | Ruckify

JUN 2020 – AUG 2020, NOV 2020 - Present | Ottawa, Canada

- Worked in the **quality assurance** team to **automate** test cases and restyled the mobile and web app to fix inconsistencies throughout the platform.
- Reduced the average testing time per test case from **10 minutes** to **18 seconds** through automation using **Cypress**.
- Fixed styling issues related to improper capitalization and forced lowercase conversion on the **Angular** website and mobile app using **SASS, CSS, HTML, and JavaScript**.

### SpotifySentences | Side Project

Jan 2021

- Created a web app using **JavaScript, HTML, and CSS** that interacts with **Spotify's API** to turn a sentence into a playlist of songs whose names recreate said sentence.

### Hackathon Team Member | MyOTStride

Apr 2018

- Won the HackingHealth 2018 Shopify Mentorship award for MyOTStride, a mobile app for Occupational Therapists.
- Designed and pitched the app using **Figma**.

### Co-President of Student's Council | Merivale High School

MAY 2019 – JUN 2020 | Ottawa, Canada

- Led a council of over 20 students to run events for our school.
- Managed **community outreach** to collect donations for events, as well as donated proceeds from events to local charities.

## Testimonials

- "Mesha was **enthusiastic**, demonstrating a strong **desire to learn** the role, gain knowledge, and apply himself fully; he was always driving to see "what else is possible" to ensure he **over-delivered** on requests or tasks. Quality of work, and communication were both above average, and far **exceeding expectations** for a new hire with limited experience. When Mesha is looking for work again, we'd love to have him return to Ruckify; if he works for you instead, it will be to your benefit!"

## Skills

JavaScript	C
Python	Test Automation
Git	DrRacket
SQL/SQLite	Agile (Scrum, Jira)
HTML	Leadership
CSS/SASS	Market Research

## Education

### Honours Mathematics and Business Administration, B.Math
